

## Texas State University

### FMA Chapter

#### **What do you enjoy most about being an FMA chapter?**

What we enjoy most about being part of an FMA chapter is that it offers various benefits and opportunities such as networking, professional development, community involvement, and access to resources, depending on the individual's interests and goals.

#### **How does your FMA chapter benefit your students at Texas State University?**

As members, students have access to a robust network of professionals, internship opportunities to gain real-world experience, scholarships to support their academic pursuits, workshops to refine their skills, conferences to broaden their horizons, and volunteering opportunities to give back to their communities.

#### **What local chapter event are you most excited about this year?**

One event that has us all eagerly anticipating is Bobcat Build, organized by the organization Bobcat Build. This is a unique opportunity for our students to engage with the community and give back in meaningful ways. Our student volunteers will be working diligently on a range of service projects, such

as landscaping, painting, and clean-ups, in various locations throughout the community, including residents' homes, local schools, parks, churches, and neighborhoods.

**What is your best advice for running a successful chapter?**

Our best advice for running a successful chapter is to establishing clear goals and objectives, fostering a strong team, building a robust network, providing value to members, staying organized, and being adaptable and flexible.
